

PATRIOT-MADE AUDIOCAST™

What is the Patriot-Made Audiocast: A series of feature stories about the people and the things they make in America. Things that are consumed, worn, enjoyed, by all: food, shoes, boots, clothing, art, music, candy, cosmetics, toiletries, etc.

Why the Patriot-Made Name : Because it can, and should, refer to any proud citizen of our country who invests himself in his community to enrich and serve the lives of others, whether it's creating a food to meet the needs of those with special needs or a product that creates just one other job in America. Being called a patriot doesn't mean you're a member of any political, religious, sectarian group or organization. Being a patriot is something a person feels from within.

Why Audiocast: Working with audio and sound is the passion of Patriot-Made Audiocast's co-creators, Rita Rich and Debra Grobman, who are veteran radio professionals. Both feel passionately about how audio enriches our everyday lives and is the most intimate and portable medium harnessed by humankind.

Why You Should Contribute Your Stories to Patriot-Made: The producers ask only for your time and in return you and your products are featured in stories that will be featured on websites, newsletters, blogs, and social network sites that are visited, or read, by thousands and thousands of readers and listeners who have already opted-in to receiving them.
